raise your hips

THEORY

How does it work?

- It combined with Vacuum+rotation+RF+red and blue light in one machine.It use the fat rotating probe and RF heat system will help to strip out the broken fat cell from the cellulite. The stripped out cell will also metabolism by the body to achieve body shaping and weight loss effected.
- Facial lifting handle piece is combined with vacuum and RFF heating function to achieve focused heating and accurate lifting of the epidermis,dermis,and subcutaneous tissue and effectively anti-wrinkle,tighten and lift your skin.

FUNCTIONAL ROLE

- **Tissue firming:**

  This treatment uses cell stimulation to promote the production of collagen and elastin,leaving the skin instantly firmer and the body slender and toned. The treatment is particularly suitable for toning the skin following weight loss.

- **Anti-cellulite:**

  This targeted treatment visibly reduces the onset of unsightly orange peel skin, it helps to smooth the skin, improving drainage and blood circulation,and restoring a harmonious body shape.

- **Anti-aging:**

  This treatment promotes tissue oxygenation and skin regeneration. It smooths out wrinkles granting visibly younger looking skin.

ADVANTAGES

1. Unique Italian deign, import USA high power supply and pump.

2. Safe, efficient, comfortable, with no side effects.

3. With four different sizes treatment heads for different treatment areas.
